

## TP802 Clear Wave (pocket tape) System: 100% Wave

## TP802 Clear Wave (pocket tape) System: 80% Wave

### Please Note:

Not all fabrics and curtain sizes are suited to wave curtains. Samples should be made to check suitability.  
 A stiffening tape can be used in conjunction with the clear wave tape if the wave shape requires it (if fabric "puckers")  
 A maximum curtain weight of 4kg per metre of track is recommended for clear wave tape.  
 Stack back on 100% fullness wave size is approximately 240mm per metre of track. (This is a guide only and is dependent on the fabric thickness, any extra carriers used, master carrier arm length, motor etc.)

### OPERATING OPTIONS

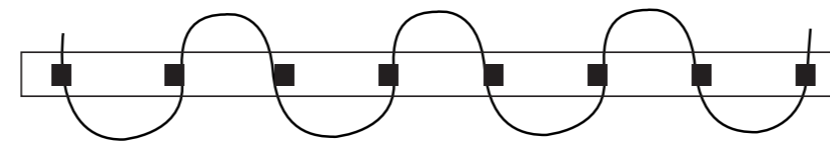

|             |  |
|-------------|--|
| MOTORISED:  | Series 80 and 84   |
| CORD DRAWN: | Series 51, 58, 65, 66, 73 and 79.<br>For tracks with bends - cord drawn is not available |
| HAND DRAWN: | All tracks listed: series 51, 58, 65, 66, 73, 79, 80, 84, 98 and 99.                     |

## Layout Options

### S - Fold Layout Options

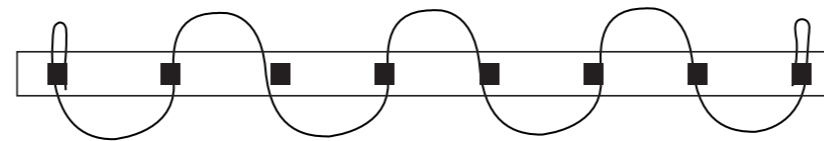

#### Option 1: Simple System Simple System "A" Clear wave

For the Clear Wave Tape the curtain does not return onto the 1st or Last Hook.

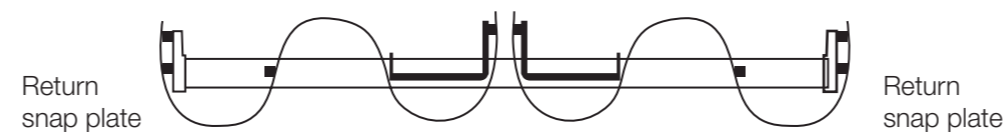

#### Simple System "B" Snap Tape

For the Snap Tape the Tape wraps around the 1st and Last Pendant.

#### Option 2: Using Return End Plates and Butt Master

Both ends return along the end snap plates.  
 The drapes meeting in the centre are both facing each other giving a neat finish.  
 Note: This option can be both centre open or one way draw.

For layout on Series 84 Motorised - see Technical Specification Sheet
