Series 50 Milan

Milan is known for fashion, fast cars, art and culture and now the Oslo Series 50...

Oslo Series 50 Milan

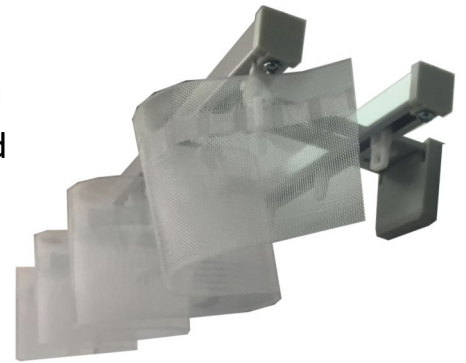

Brought to Australia, this new high fashion and sleek designed track will start reshaping the curtain industry. This stylish new product comes with the new "Easy Clip" and cover plates for face fix brackets to give a clean finish, hiding all screws.

It's rare to find an attractive track that is so highly sort after by both designers and fitters - with installation so easy making the track desirable for all applications.

Oslo Series 50 track

Made with the highest quality aluminium, the track is slim and compact, yet strong and reliable, suitable for conventional and S-Wave curtains. Known for its versatility, this track can be used for both commercial and domestic application such as hotels, homes, shops, aged care etc. The track can be bent at 100mm radius or a continuous curve and is perfect for all.

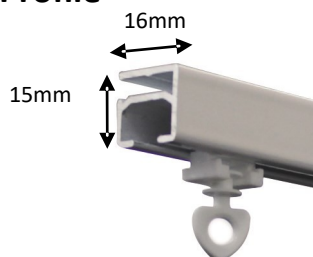

Unlike Anodised, the Platinum has a special electro plated finish allowing runners to glide through the track with minimal friction. Platinum is unique to Oslo. Initially available in White and Platinum, more colours will be available with demand.

Easy Clips and Bracket Cover

Bringing both fashion and practicality in one bracket, the "Easy clip" and covers give the bracket a modern, attractive and functional combination. The Oslo Series 50 can also be mitre returned to the wall to produce the ultimate clean line finish.
